View, make and experience contemporary Art at KADMIUM

Art center KadmiuM is hidden behind the houses at the canal Koornmarkt, in the city center of Delft. Walk through the corridor and you will discover a quiet courtyard. In the four rooms are exhibitions of contemporary art with

different themes, techniques, disciplines and artists. Every five or six weeks a new exhibition starts. We have a bar, free WIFI, a little shop with jewelry, drawings and small 3d art objects. Besides being an art center KadmiuM also provides temporary jobs for the long-term unemployed citizens of Delft. This gives them the opportunity to acquire working experience.

Ongoing gallery shop

Jewelry from 5 different artists, among others:

Brech

Brech is a small multidisciplinary team of (industrial) designers, goldsmiths and scientists working in a laboratory-like set-up. We regard jewelry as a mirror of its time. Our main challenge is to combine traditional craftsmanship with modern technology. We strive for innovation on a conceptual, material and/or production level with respect for the traditional (emotional) values that are assigned to jewelry. Our designs are produced in small series.

Workshop Art, Collage and History

During three evening sessions you will be making your own collage and learning about the history of this discipline in the contemporary art. Visual artist Aart Houtman challenges you to develop your own piece of collage art.

Costs: 45 euro

Dates: Tuesday the 29th of November, the 13th and 20th of December.

Time: 19:30 - 21:30

Reservation: Call 015 213 09 65 or e-mail info@kadmium.nl

Vacancy: host/hostess

We are looking for hosts and hostesses who want to give support on voluntary basis.

As a host(ess) you will welcome our guests and give them information of the current exhibition. Or hosting a workshop or another special event. And we can also use some help to make our publicity more suitable for foreigners. For further information please contact José Zeldenthuis (jose@kadmium.nl) or visit our website www.kadmium.nl.

2D FRAMED and vitrIN

In our daily life, we grow weary and bored. BUT heavens be praised, we have... art. Art comes in all shapes and colors. Some artworks however remain forever hidden in junk closets and under dusty beds, never to get the attention they deserve from hordes of hungry art lovers. But no more! All of us have spent a lot of time in creating, little sketches to huge masterpieces, and that should be appreciated.

Therefore Kadmium has launched two new projects: 2Dframed and vitrIN. These allow starting artist to show Delft their 2D and 3D works. We want your hidden gems to shine in our gallery... so here we are, offering young artists a place to exhibit. So dust off your artwork and get ready for a great opportunity!

By Stefan Bok

Kadmium organizes on request a variety of workshops

For example:

- Mosaic Workshops by Chris Dagradi
- Birthday party 2 hours (children 7+, with cake & lemonade)
- Short Workshop 2,5 hours
- Long workshop 2,5 hours (with lunch)

Introduction to the history of mosaic.

- Demonstration and explanation of materials, tools and techniques.
- Choice of: 2D or 3D surface
- Wide choice of ceramic and glass materials, grout instructions and materials
- Maximum number of participant: 10
